OHIO TACTICAL
OFFICERS ASSOCIATION

LOW POWER VARIABLE OPTICS OPERATOR

Duration: 2 Days (16 Hours) • Cost: $500

Submitted for CPT Hours: Coming soon

This course provides a comprehensive overview of Low Power Variable Optics (LPVOs) tailored for law enforcement patrol and Designated Marksman Rifle (DMR) operations. Participants will explore the development and relevance of LPVOs in modern law enforcement scenarios, including frequently asked questions, best practices, optic and mount selection, placement, and installation. This LPVO integration course is designed for patrol and tactical operations.
Students will gain hands-on familiarity with reticles, focal planes, leveling, and zeroing techniques. Designed for classroom delivery, this program covers essential knowledge to equip officers with the skills needed for effective LPVO deployment in the field.
